PROFILE

I am a precise, orderly and curious person who is looking for an instructive and innovative job as a junior frontend developer. I am very motivated and I'm always willing to increase and improve my knowledge about the IT world through a lot of hard work and studies.

STUDIES

2023 - 2024

Intec Brussel

Enterprise Java Developer

Training where I learned to work with the Java programming language. During this training, I learned the fundamentals of the language such as the basic principles, best practices, object oriented programming, databases creation, development of Rest APIs, test driven development, and much more.

2022 - 2023

Intec Brussel

Web development

Training in which I learned to work with HTML5, CSS3, Javascript and Typescript to develop websites. There I also learned how to work with the Javascript library called React, the React framework called Next JS, and the Tailwind CSS framework to develop more complex websites.

2018 - 2021

Saint-Guido Institute

Secondary Education

School where I obtained my secondary education diploma in construction techniques. In this school I learned to work with the AutoCad program to design construction plans.
